Skipper Retractable Barrier

Product Brochure

Skipper™

Introduction to Skipper

Skipper™ - a unique purpose designed approach to traffic and facilities management.

Cordon off hazardous or restricted areas indoors or outside quickly and cost effectively. Skipper's fully retractable 9 metre tape enables all areas to be closed off using standard weighted-base cones or our post and base system. Simply click Skipper over the top of your cone, or if you wish, for greater security you can fix the unit onto the cone or post. Alternatively using our optional wall mount bracket, Skipper can be used to block doorways, close off aisles in warehouses or anywhere that requires a fixed barrier.

Main Features

- Full 9 metre retractable tape.
- Push button tape lock to prevent tampering
- Tough, corrosion proof moulded housing
- Four way connectivity
- Unique belt clip allows belt to hook onto itself
- Fits standard 1 metre traffic cones or post and base system
- High visibility Red/White Tape
- Wall mount bracket available

Specifications

- | | |
|--------------|--|
| Description: | Cone mount 9 m retractable barrier |
| Material: | Housing – High impact moulded polypropylene.
Tape – Reinforced nylon with water repellent coating |
| Tape Finish: | Red/white diagonal stripes |
| Tape Length: | 9metre |
| Housing: | 250mm high x 150mm in diameter. |
| Weight: | Skipper only 0.9kgs. |

Skipper is an ideal system for cordoning off an area, thus creating safer environments quickly and clearly. The retractable tape reduces the quantity of cones required.

Skipper fits securely onto a conventional 750mm or 1 metre traffic cone. The unit has a tape locking device and a self-tensioning ratchet ensures the tape remains taut and in position. The tape is reinforced nylon with a water repellent coat and anti-tear resistance. Red and white standard colours as well as blue and white Police tape is available, or, if you prefer the tape can be overprinted, logo embossed and supplied in your choice of corporate colours.

Extra Features

The main Skipper unit has a removeable top which allows for the fitting of accessories, including the Skipper Light and the Sign Holder, which can be used for Warning Signs or your own individual signs or promotional messages (Sign holder will hold A4 size panels).

The Skipper tape End Clip has been designed so that, in the event that further Skipper units or Wall / Vehicle Brackets are not available it can be wrapped around a suitabel end point and clipped to itself.

The Skipper unit also incorporates a lockable button for the tape, which will prevent unwanted spooling of the tape and thereby prevent sagging.

There is also a small hole in the base of the unit which allows for permanent fixing, should this be required.

Accessories

A multi function LED Warning light that is fully rechargeable. With permanent of flashing facility available in UK, European & US rates of flashes per minute. Also includes a light sensor for automatic activation which can be turned off. Conforms to BS3143 part 2 1990. Available in Amber or Blue light.

A receiver for walls, or alternatively magnetic for vehicles. Allowing the end clip from the last Skipper to attach direct without the need for a further cone.

A4 sign holder that clips on top of the unit to display any warnings or promotional messages. Simply slide your message into the polycarbonate u-shaped sleeve

As an extra accessory to the Skipper we can also offer a range of cones available in three sizes. 1metre, 0.75metre and 0.5metre.

Tape Designs

Skipper Standard Tapes

Our standard tapes are all durable, dip coated and unrippable. They are available in chevron designs in Red & White, Yellow & Black or a special Blue & White Police Line design

Skipper Branded Tapes

Our branded tapes are made to the same exacting standards as the standard tapes. They are available in up to four colours for logos, promotions or warning messages.
